The purpose of the assessment report is to assist the school in establishing the educational and training needs of the child relevant to his/her disability or special needs and to profile the support services required. Following receipt of the report the board will assess how the school could meet the needs specified in the report. Where the board deems that further resources are required it will, prior to enrolment, request the Department of Education and Science to provide the resources required to meet the needs of the child as outlined in the psychological or medical report.

The school will meet with the parents of the child to discuss the child's needs and the school's suitability or capability in meeting those needs.

The BOM reserves the right to refuse enrolment where:

(a) The pupil has special needs such that, even with additional resources available from DES, the school cannot meet such needs and/or provide the pupil with an appropriate education

or
